THE LONDON STEREOSCOPIC COMPANY'S

NEGATIVE COLLODION.

A most sensitive preparation, giving great intensity, while it fully preserves the detail and demi-tints in the shadows. 9s. per lb.; 8d. per ounce.

The collodion and iodizing solution can be had separately, in which state they will keep in good condition for years.

POSITIVE COLLODION.

Unsurpassed for uniformity of action, sensitiveness, and keeping qualities. 8s. per lb.; 6d. per oz.

SILVER BATHS (Positive and Negative.)

Most carefully prepared, and ready for immediate use. 6d. per ounce; 8s. per pint.

Developing and Fixing Solutions made to order.
